

TRACE eLearning

Award-winning eLearning

TRACE has been recognized by Brandon Hall Group with three Excellence Awards:

One GOLD Technology Excellence Learning and Development Technology Award in the **Best Advance in Learning Management Technology for Compliance Training** category for our TRACE Learning Management System (LMS).

One GOLD Human Capital Management (HCM) Excellence Learning and Development Award in the **Best Advance in Compliance Training** category, for our latest anti-bribery compliance eLearning module, "Mission Possible." *

One SILVER Human Capital Management (HCM) Excellence Learning and Development Award in the **Best Learning Team** category.

Seamlessly deploy training to an unlimited number of employees and third parties

Compliance training helps shield your organization from legal risk, protects your corporate reputation, and creates a culture of business ethics. **It's the foundation of any effective compliance program.** That's why we offer our members unrestricted access to our expansive eLearning library and Learning Management System (LMS) at no additional charge.

Site Automation Features

Training deployed via the TRACE (LMS) can be completely automated using automatic course enrollments, email notifications and manager delegation within the training site. Administrators who prefer a more "hands-off" approach can also elect for users to self-register in the training site.

Tracking & Reporting

To track and monitor learner progress, the TRACE LMS offers a robust yet easy-to-use reporting tool that allows training administrators to export and save updated data on enrollees. Through the reporting feature, administrators can schedule and run customized reports by selecting and editing data fields, including but not limited to course status, date of completion, last login and more.

Training Packages

Bundling together our most popular training "add-on" features, these tiered packages include services such as creating custom policy courses, access to additional accounts (training sites) on the LMS, custom training guides, hands-on technical support and the ability to host (and deploy) your own internal training content via the TRACE LMS. These packages also offer additional **TRACEpro** enrollments.

Download our [TRACE Training Packages Info Sheet](#) or email training@TRACEinternational.org for more information on tiers and pricing.

Included with TRACE eLearning

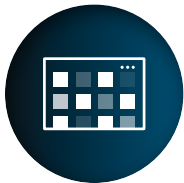

TRACE offers a variety of resources to meet your organization's compliance training needs, including:

More than 50 animated videos and graphic novels

Over three dozen mini guides, case studies, guidebooks and white papers

A host of materials for ongoing compliance communications, including training aids, memes, videos and compliance games

Hours of podcasts exploring diverse topics including corruption, fraud, money laundering and sanctions

Hundreds of webinars covering a wide variety of compliance topics

10 complimentary TRACEpro enrollments

TRACE eLearning offers

- **Learning Management System (LMS)** access featuring a built-in administrative dashboard to easily manage users, groups and training results
- **Interactive courses** that explore real-life scenarios and teach appropriate conduct in a variety of situations
- **Ability to launch courses from the TRACE LMS and/or your company's own LMS** (files available in SCORM format)
- **Multilingual platform available in 39 languages**, including Arabic, Simplified and Traditional Chinese, English, French, German, Japanese, Portuguese, Russian and Spanish
- **Technology Integrations including Application Programming Interface (API)** which allow for the seamless addition/removal of trainee data and report automation using RESTful APIs and OAuth2 as well as **Single-Sign On (SSO)** to authenticate access to the LMS through a third party system
- **Learner Engagement** features including course surveys, gamification as well as teams and manager oversight directly within the LMS
- All TRACE courses in our core languages are **compliant with WCAG 2.1 Level AA accessibility standards**

The TRACE LMS is supported by PCs, laptops, select tablets and mobile devices and is also accessible via mobile app for both iOS (including iPads) and Android devices.
